

ADDventures

March 2011

It is the service we are not obliged to give that people value most.

~ James C. Penney-founder of J. C. Penney

March ADD STAFFers of the month:

Justin F.
Gwen L.
Gary C.
Toni K.
Ken M.
Linda R.
Jessica H.
Jim D.
Jessica K.
Tracy N.

Congratulations for jobs well done.

The ultimate boss is the customer. They have the money, and you are there to serve them so they will share that money with you. They decide whether you will survive and how much money you make. The customer also gets to tell you when to come to work, when to go home and whether you are doing your job correctly.

Why should we recycle?

- § Saves Natural Resources - By making products from recycled materials instead of virgin materials, we conserve land and reduce the need to drill for oil and dig for minerals.
- § Saves Energy - It usually takes less energy to make recycled products; recycled aluminum, for example, takes 95% less energy than new aluminum from bauxite ore.
- § Saves Clean Air and Water - In most cases, making products from recycled materials creates less air pollution and water pollution than making products from virgin materials.
- § Saves Landfill Space - When the materials that you recycle go into new products, they don't go into landfills or incinerators, so landfill space is conserved.

- The dial tone of a normal telephone is in the key of "F"
- There are 293 ways to make change for a dollar
- There are 86,400 seconds in day
- During thinking, we use only about 35% of our brains
- 250 to 300 million cell phones are being used in the U.S.
- Your foot is the same length as your forearm
- In the US, Americans eat about 18 acres of pizza a day
- If you plug your nose and keep your mouth closed you can't hum
- $111.111.111 \times 111.111.111 = 12.345.678.987.654.321$

Guidelines, rules, and principles to live by are just words – unless you actually live by them. To be the trusted and respected leader whom others will want to follow, you must...practice what you preach.

Don't let yesterday use up too much of today.
~Will Rogers-cowboy, comedian, humorist

What is it that goes up and goes down but does not move?

Answer to February brain teaser: An ear of corn.
